

Do not allow the adoption of the Broadcast Flag. It has not been demonstrated that it can achieve its stated goal without impinging on my legal rights as a consumer/owner of material, particularly in the preservation of my property rights. It simply cannot be squared with any concept of fair use.

There is much more at stake here than some napsteresque nightmare conjured up by the recording industry. Now you threaten to damage rights embedded in the Constitution. I urge you to withstand the dollar driven arguments of the few, and to think of the greater, and historical, interest of the many.

Thank you.
